

UT1500/2200E

UT Series

Fire-resistant UPS with The Most Durable Capability For Protection

The UT Series provides reliable battery backup and surge protection for home and office appliances while featured data line protection safeguards phones, faxes, Ethernet devices, and other communication equipment from AC transients and other power irregularities.

With the built-in Automatic Voltage Regulation (AVR) stabilizing the AC power and maintaining a safe voltage, the UPS ensures safe power levels through Boost and Buck function for the connected equipment without resorting to battery power.

The PowerPanel® Personal Edition management software showcases the feature-rich abilities such as input/output power voltage readings, self-diagnostics, and approximate battery backup time.
